Description

- The handmade LED Storm Cloud is an immediate conversation starter. Vibrant, whimsical, and illuminating. The lightning interacts with you and can be seen flowing through the cloud as you speak, pulse in time with your music, and liven up your parties and events. When off, the cloud hovers elegantly quiet and piques the interest of your guests. This is a dreamlike light-up cloud that is perfect for a children's room, nursery, or accent light anywhere. Great for
===== Nursery Kids room Gameroom Movie nights Ambient light Night

light What's in the package: ===== There is a small battery pack hidden on the top of the cloud that holds three AA batteries. Can also work with Electricity upon Request. Comes ready to hang with 8 different light settings fade, flash, strobe, etc. It also comes with a dimmer and a timer. A battery pack is easily accessible to change when needed. How to operate ===== Patterns, color, intensity, and power can all be controlled by the physical switch hidden at the base of the cloud (for ease of access), or with remote control.

****Processing time + Installation is currently 4 Days.**
